

INTERVIEW WITH EMPLOYER

Who arranges the telephonic interview?

- We as the Agent arrange for the interview. We inform you of the farmer's name and contact details. You then reach out to the employer and advise who you are and why you are calling.

How does the telephonic interview work with the employer?

- As soon as an employer is interested in you, an "Interest Notification" will be received.

- Agri+ Labour Placements will send you the contact details of the interested employer.

- Contact the employer for a personal interview from 16:00 (SA time) till about 24:00 (SA time). Keep on trying to contact the potential employer. **DO NOT GIVE UP AFTER ONE OR TWO CALLS!**

- If you experience problems in contacting the employer, inform us immediately.

Points to remember during the interview.

- Introduce yourself to the farmer
- Make sure it is a convenient time to speak to him.
- Give the employer a chance to ask you questions (Answer as many of the questions as possible, but keep the answers short and strong).
- Once you are sure the employer has asked all his questions, you can then ask your questions to bring yourself up to date with eg. Housing, work conditions, what he expects from you, etc.

IMPORTANT: Always create a good impression. You are not the only candidate that will be considered for the position.
